

OCT 05 2001

SUZANNE LEIGH FIELDING: I really feel that we

552317

7 shouldn't have this Yucca Mountain thing. Let them put

8 it in their own states. If they have nuclear test

9 things, let them do it in their own backyard. They

10 don't need to mess up Nevada.

11 I'm a native Californian. I moved over here

12 just because of that. Okay.

13 MR. BROCOUM: Okay. You need to give her your

14 name for the record.

15 SUZANNE LEIGH FIELDING: Suzanne Leigh Fielding,

16 L-E-I-G-H.

17 THE REPORTER: Thank you.

18 SUZANNE LEIGH FIELDING: You're welcome.

19 And that's about it. Do you think that we would

20 be able to fight there?

21 MR. BROCOUM: It's up to you; you make comments,

22 and it's up to the Secretary, the Secretary of Energy.

23 SUZANNE LEIGH FIELDING: Okay.

24 MR. BROCOUM: And it has to go through the

25 Secretary of Energy. It has to go through the

552317

1 President. He has to approve it. And if the state
2 disapproves it, it has to go to Congress. It has to go
3 to Congress, and Congress has to approve it. That's the
4 steps.

5 SUZANNE LEIGH FIELDING: So to do this, I should
6 write to my congressman and whoever has to do with this?

7 MR. BROCOUM: Yes.

8 SUZANNE LEIGH FIELDING: Do you have the
9 addresses or anything?

10 MR. BROCOUM: I don't have them here. I'm sure
11 we can get them, whoever your representative is. I
12 don't know who your representative is.

13 SUZANNE LEIGH FIELDING: I don't, either.

14 MR. BROCOUM: The delegation in Nevada is
15 opposed to the Yucca Mountain repository.

16 SUZANNE LEIGH FIELDING: I presume Joe Dini
17 would have it.

18 MR. BROCOUM: I presume so, yes.

19 SUZANNE LEIGH FIELDING: He's a good friend of

20 my sister and brother-in-law. They would be here, but

552317

21 they're on oxygen 24 hours a day, and it's too -- you

22 know, too hard to get out.

23 Thank you.
